

Candidate Statement

I have been on nonprofit boards, president twice, and am familiar with corporate governance and finance.

As a public utility attorney and later a health law attorney, I prepared, analyzed and critiqued financials: profit and loss, asset and liability, balance sheets, in corporate, agency and court contexts.

I served as a law school Dean, and dealt with six years of program budgetting, each balanced from beginning to end.

As Treasurer, I would strive for transparency, fiscal responsibility, accountability, and full disclosure.

As a Board member, I would seek collegiality within the Board, community within the Church, proper procedure within the bylaws (See Roberts Rules.) and respect for all. (See Seven Principles)

I am familiar with computers (eg, word processing, Power Point, Excel, PhotoShop, VAS etc), but I delegate data entry and my granddaughter has taught me Zoom, so I could do remote meetings from Oregon.
